DETAILED ACTION

Abstract

Applicant is reminded of the proper language and format for an abstract of the disclosure. The form and legal phraseology often used in patent claims, such as "means" in line 5, should be avoided.

Specification

The disclosure is objected to because the status, i.e., --now U.S. Patent No. ____--, of the applications listed on page 1 should be updated. Appropriate correction is required.

Claim Objections

Claim 8 objected to because "tab" in line 4 should be changed to --tabs--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3634

Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: between the pusher means and the base structure.

Claims 4, 5, and 6 each recites the limitation "said support wires". There is insufficient antecedent basis for this limitation in the claim. It is noted that claim 1 (see line 3) sets forth "wire supports". *Accordingly*, to correct the lack of antecedent basis in claims 4-6, it is suggested that "wire supports", in line 3 of claim 1, be changed to --support wires--.

Claim 5 is rendered indefinite by the language (in line 1 of section (c)) "at least certain of". It appears that a word such as --ones-- is missing after "certain".

The term "short" in claim 6 (see line 5) is a relative term which renders the claim indefinite. The term "short" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Claim 6 recites the limitation "said support structure" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action, claims 2, 3, and 7-11 are objected to as being dependent upon a rejected base claim, and claims 4-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
